(54) Title: **LABELLING DEVICE**

(57) **Abstract:** The present invention relates to a device for creating adhesive labels (51,52) from a web (2) of material having an adhesive side and a non-adhesive side. The device includes a web transport system (1) for transporting the web from a web source along a web path to a web path end, and a label transport system (16) for transporting a generated label along a label path.
